About PwC
Survey Methodology

Survey Scope

The IAB Internet Advertising Revenue Report is part of an ongoing IAB mission to provide an accurate barometer of Internet advertising growth.

To achieve differentiation from existing estimates and accomplish industry-wide acceptance, key aspects of the survey include:

• Obtaining historical data directly from companies generating Internet/online/mobile advertising revenues;

• Making the survey as inclusive as possible, encompassing all forms of Internet/online advertising, including Web sites, consumer online services, ad networks, mobile devices and e-mail providers; and

• Ensuring and maintaining a confidential process, only releasing aggregate data.

Methodology

Throughout the reporting process, PwC:

• Compiles a database of industry participants selling Internet/online and mobile advertising revenues.

• Conducts a quantitative mailing survey with leading industry players, including Web publishers, ad networks, commercial online service providers, mobile providers, e-mail providers and other online media companies.

• Supplemental Data is acquired through the use of publicly disclosed information.

• Requests and compiles several specific data items, including monthly gross commissionable advertising revenue by industry category and transaction.

• Identifies non-participating companies and applies a conservative revenue estimate based on available public sources.

• Analyzes the findings, identifies and reports key trends.
Annual revenues totaled $42.8 billion in 2013

Online advertising revenue increased 17.0% in 2013.

PwC New Media Group

As business, accounting, and tax advisors to many of the world’s leading Entertainment, Media, and Communications (EMC) and Technology (Tech) companies, PwC (www.pwc.com) has an insider’s view of trends and developments driving the industry. With approximately 1200 practitioners serving EMC and Tech clients in the United States, PwC is deeply committed to providing clients with industry expertise and resources. In recent years, our pioneering work in EMC and Tech has included developing strategies to leverage digital technology, identifying new sources of financing, and marketplace positioning in industries characterized by consolidation and transformation. Our experience reaches across all geographies and segments of the EMC and Tech sectors, including broadband, wireless, the Internet, music, film, television, publishing, advertising, gaming, theme parks, computers and networking, and software. With thousands of practitioners around the world, we are always close at hand to provide deep industry expertise and resources.

PwC’s New Media Group was the first practice of its kind at a Big Four firm. Currently located in New York, Los Angeles, Boston, Seattle and the Bay Area, our New Media Group includes accounting, tax and consulting professionals who have broad and deep experience in the three areas that converge to form new media: advanced telecommunications, enabling software and content development/distribution.

Our services include:

- Business assurance services
- Web audience measurement and advertising delivery auditing and advisory
- IAB Measurement Certification Compliance auditing
- Privacy policy structuring, attestation and compliance advisory
- Mergers & Acquisition assistance
- Tax planning and compliance
- Capital sourcing and IPO assistance
