About PwC

**Survey Scope**

The IAB Internet Advertising Revenue Report is part of an ongoing IAB mission to provide an accurate barometer of Internet advertising growth.

To achieve differentiation from existing estimates and accomplish industry-wide acceptance, key aspects of the survey include:

- Obtaining historical data directly from companies generating internet (desktop and mobile) advertising revenues;
- Making the survey as inclusive as possible, encompassing all forms of internet advertising, including websites, consumer online services, ad networks and exchanges, mobile devices; and
- Ensuring and maintaining a confidential process, only releasing aggregate data.

**Methodology**

Throughout the reporting process, PwC:

- Compiles a database of industry participants selling internet advertising revenues.
- Conducts a quantitative mailing survey with leading industry players, including web publishers, ad networks, commercial online service providers, mobile providers, and other online media companies.
- Requests and compiles several specific data items, including monthly gross commissionable advertising revenue by industry category and transaction.
- Acquires supplemental data through the use of publicly disclosed information.
- Identifies non-participating companies and applies a conservative revenue estimate based on available public sources.
- Analyzes the findings, identifies and reports key trends.
Half year revenues totaled $49.5 billion in 2018

Revenues for HY 2018 were approximately $9.3 billion higher than in HY 2017

PwC’s Technology and Entertainment, Media, and Communications practices

As business, accounting, and tax advisors to many of the world’s leading Entertainment, Media, and Communications (EMC) and Technology (Tech) companies, PwC (www.pwc.com) has an insider’s view of trends and developments driving the industry. With approximately 1,200 practitioners serving EMC and Tech clients in the United States, PwC is deeply committed to providing clients with industry experience and resources. In recent years, our pioneering work in EMC and Tech has included developing strategies to leverage digital technology, identifying new sources of financing, and marketplace positioning in industries characterized by consolidation and transformation. Our experience reaches across all geographies and segments of the EMC and Tech sectors, including broadband, wireless, the internet, music, film, television, publishing, advertising, gaming, theme parks, computers and networking, and software. With thousands of practitioners around the world, we're always close at hand to provide deep industry knowledge and resources.

Our services include:

• Business assurance services
• Web audience measurement and advertising delivery auditing and advisory
• Privacy policy structuring, attestation, and compliance advisory
• Mergers & acquisitions assistance
• Tax planning and compliance
• Capital sourcing and IPO assistance
• Marketing & Media operations enablement
